

How does it work?

Have a look! Travel anywhere and easily find great people who want to meet you as well. See where other travellers are and help each other out, whether through welcoming them to your home, sharing your stories or becoming friends.

Trustroots is already over 26,000 members strong!

Share the beautiful you with the world.

Put yourself in the shoes of others: what would you like to know about your travel buddies? What should they know about you?

Be genuine yourself.

Tribes

Joining Tribes helps you find likeminded Trustroots members and tells others what you're interested in.

Manifesto

We want a world that encourages trust, adventure and intercultural connections.

Our willingness to help each other is universal. Trustroots is completely free to use and will remain so forever.

We believe in beauty, simplicity and transparency.

We emphasize community.

Team

Trustroots is being built by a small team of activists who felt that the world of sharing is being taken over by corporations trying to monetize people's willingness to help each other. Same team brought you also [Hitchwiki \(http://hitchwiki.org/\)](http://hitchwiki.org/), [Trashwiki \(http://trashwiki.org/\)](http://trashwiki.org/) and [Nomadwiki \(http://nomadwiki.org/\)](http://nomadwiki.org/).

> [Meet the team \(/team\)](#)

Free and open source

We think it's a shame that former non profits have been sold to venture capital. We've been running other notable free and open projects for a decade now and we hope our deeds so far speak for us.
