Welcome to the SHN

The Sustainable Heritage Network (SHN) is an answer to the pressing need for comprehensive workshops, online tutorials, and web resources dedicated to the lifecycle of digital stewardship. The SHN is a collaborative project that complements the work of indigenous peoples globally to preserve, share, and manage cultural heritage and knowledge. The SHN, along with our Partners, organize and offer face-to-face workshops (</collection/shn-workshops>), produce educational resources (</digital-heritage>), and link people and resources through our digital workbenches (</communities>). The SHN is part of a network of individuals, communities, and institutions who work together to provide each other with digital tools and preservation assistance. We call this: Collaborative Stewardship.
