

Welcome Mukurtu CMS 2.0

A Safe Keeping Place

The free, mobile, and open source platform built with indigenous communities to manage and share digital cultural heritage.

Mukurtu (MOOK-oo-too) is a grassroots project aiming to empower communities to manage, share, and exchange their digital heritage in culturally relevant and ethically-minded ways. We are committed to maintaining an open, community-driven approach to Mukurtu's continued development. Our first priority is to help build a platform that fosters relationships of respect and trust.
